

“

***High efficiency and reliability, high flexibility,
easy and quick installation ”***

Flexible solar panels, through reliable manufacturing process, ultrathin lightweight design, with high efficiency and reliability, high flexibility, easy and quick installation, the application scene is very wide.

Such as: balcony, caravan, cold chain vehicle, yacht, fishing boat, as well as roofs with low load-bearing capacity, application scenarios with bending angles.

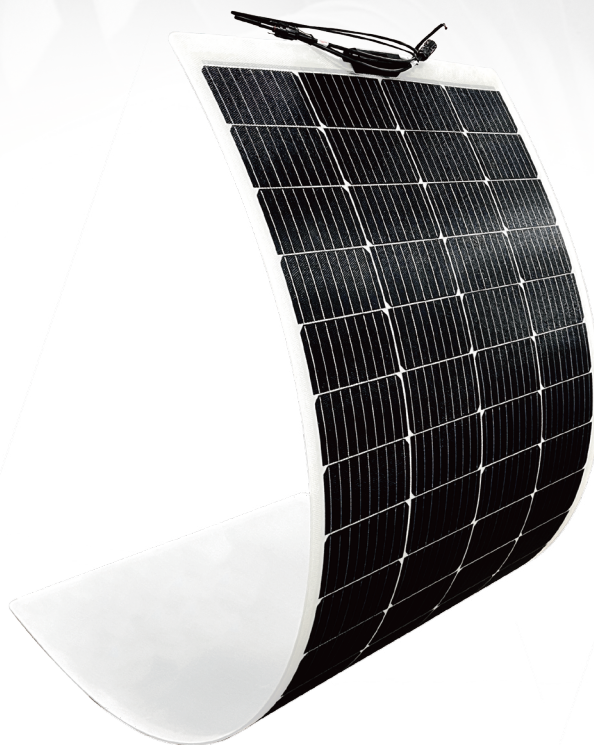

It can be designed, developed and customized according to customers' requirements. It can be customized according to the demanded power, voltage, size, cable, color, installation holes, brand logo and so on.

Efficient

Stable

Flexibility

Specifications

Module Type	MS-Flexible-200W
Maximum Power :Pmax(W)	200W
Open Circuit Voltage:Voc (V)	48.6V
Short Circuit Current:Isc (A)	5.25A
Voltage at Maximum Power :Vmp (V)	40.32V
Current at Maximum Power :Imp(A)	4.96A
Connector Type	MC4 Compatible
Dimension	1595*720*25
Weight	4.45kg
Color	Black
Junction Box	IP67
Output Cable	2.5mm ² *600mm
